### **Together we are strong!**

The IMO Group consists of the enterprises IMO Anlagenbau GmbH & Co. KG, IMO Antriebseinheit GmbH & Co. KG, IMO Energy GmbH & Co. KG, IMO Momentenlager GmbH & Co. KG and IMO Holding GmbH.

All companies are headquartered in Gremsdorf, in the [Nuremberg metropolitan region](#), in Southern Germany.

[IMO Anlagenbau](#) offers future-oriented environment technologies and solutions in the machine and plant manufacturing sector.

[IMO Antriebseinheit](#) specializes in the production of internationally-patented slew drives, ready-to-install systems consisting of slewing ring, drive, and sealed housing.

[IMO Energy](#) is one of the leading suppliers of blade, yaw, and single main bearings for wind turbines, as well as blade bearings for tidal stream systems.

[IMO Momentenlager](#) manufactures ball and roller slewing rings to a diameter of 5,200 mm with state-of-the-art production equipment.

[IMO Holding](#) is available to the Group as a central service provider with departments such as Human Resources, Finance, IT, and Group Purchasing.

The IMO Group is a member of the [Bundesverband der Energie-Abnehmer e.V.](#) (German Federal Association of Energy Consumers), the [IHK](#) (International Chamber of Commerce), and the [Forschungsvereinigung Antriebstechnik](#) (Research Union for Power Transmission).
