

## Quality and reliability - right from the start!

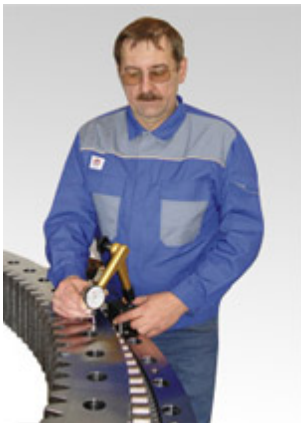

Our company philosophy focuses on supplying products of the highest quality and fulfilling customer requirements to the highest standards.

Our customers can take advantage of more than 17 years experience in consulting, development, manufacturing and supplying of large Slewing Rings and self-contained Slew Drives. We promise the highest quality right from the start.

We continuously improve our internal processes at IMO to avoid and eliminate errors. With these high quality standards we ensure ongoing improvement of all our individual processes.

Our Quality rules and procedures are published for our employees and interested customers in our „Integrated Management system“ guidelines.

Since 1995 the Quality Management System at IMO is certified according to DIN EN ISO 9001. Today our Environmental Management System DIN EN ISO 14001 and Employment Protection System OHSAS 18001 are certified and also summarised in the „Integrated Management System“.
